

dosiBOARD Factsheet

The dosiBOARD provides a clear and convenient storage solution for unused dosemeters and comes in multiple versions to cater to the specific requirements of our customers.

The modular dosiBOARD-II can hold up to 15 dosemeters (overall size: 42×39 cm). Dosemeters that need to be replaced can be stored separately. In addition, a hanger is available for dosemeters with lanyards.

The dosiBOARD-III, also designed modularly, can hold up to 10 dosemeters (overall size: 40 cm×11 cm×3.5 cm). Separate holders are available for dosemeters that need to be replaced as well as for eye and ring dosemeters. All holders can be easily removed and cleaned.

The dosiBOARD ring provides a storage solution for up to 10 ring and eye lens dosemeters. The overall size measures 42×5 cm. The storage containers can be personalized.

15 dosemeter

Width: **42 cm**

Height: **39 cm**

Depth: **3 cm**

10 dosemeter

Width: **40 cm**

Height: **11 cm**

Depth: **3.5 cm**
